AUTOMOTIVE INDUSTRY
TRANSPORTATION OF CARS AND SPARE PARTS

With AsstrA, the international transportation of vehicles, spare parts, automobiles and valuable components, will go smoothly, if entrusted to our experienced team. We provide a broad range of logistics and transportation services for the entire automotive industry.

ASSTRA SERVICES FOR THE AUTOMOTIVE INDUSTRY INCLUDE:

-  Organization and provision of the transportation of vehicles by different modes including car transporter trucks. Multimodal and intermodal transportations, air delivery of small and urgent dispatch of spare parts;
-  Individual approach to cargo safety during the loading process;
-  Warehousing;
-  24/7 cargo monitoring during all steps of transportation;
-  Comprehensive customs support in Europe and CIS countries.

ASSTRA TRANSPORTS A WIDE VARIETY OF AUTOMOTIVE PRODUCTS, INCLUDING:

Passenger cars

Spare parts and components

Trailers and semitrailers

Industrial vehicles

Tires

OUR ADVANTAGES

**YOUR MISSION
OUR SOLUTION**

RELIABILITY: AsstrA is a member of the Transported Asset Protection Association (TAPA), what provides additional opportunities to minimize the risks of damage and loss of cargo during the transportation of automotive equipment, cars, tires and tractors.

FINANCIAL SAFEGUARDS: To confirm our status as a reliable and responsible partner, our company insures its liability for 3,000,000 EUR per shipment with reliable Swiss insurer Zurich Insurance Company Ltd.

COMPREHENSIVE SERVICE: AsstrA is a single, expert source for a full range of transportation services of cars and spare parts: international freight forwarding services, intermodal scheme development, customs and documentation support, insurance, consulting, project logistics, and logistics services.

EXPERT PARTNERS: AsstrA's transport partners have all necessary licenses, permits and carrier liability insurance contracts. We cooperate on the basis of long-term contracts which guarantee the achievement of high KPI indicators regardless of market conditions.
